Koss Corp. Releases First Quarter Results

Milwaukee, Wisconsin: Koss Corporation (NASDAQ SYMBOL: KOSS), the U.S. based high-fidelity headphone company, has reported its first quarter results for the quarter ended September 30, 2018.

Sales for the first quarter were \$5,784,839, which is a 4.9% decrease from sales of \$6,084,055 for the same three month period one year ago. The three month net income was \$67,411, compared to net income of \$21,969 for the first quarter last year. Diluted and basic income per common share for the quarter was \$0.01 compared to diluted and basic loss per common share of \$0.00 for the three month period one year ago.

"New wireless bluetooth products continued to drive an increase in sales to distributors in Europe," Michael J. Koss, Chairman and CEO, said today. "However, the improvement in the European market was not enough to overcome a decline in sales to domestic mass retail compared to the same period last year. In part, the decline in sales to mass retail was caused by larger than expected orders in the last quarter of fiscal year 2018, which created inventory shortages on those models in the first quarter this year."

"Despite the setback in domestic sales," Koss continued, "a strong mix of sales by product, customer and sales channel drove an increase in gross profit and allowed us to generate net income of \$67,411 for the quarter ended September 30, 2018, compared to net income of \$21,969 for the same three month period one year ago."
